

**INFORMATION,
SEARCH,
and CAUSES:
Rational
and cognitive
approaches**

Turin
6th February 2015

ex Sala Lauree
Giurisprudenza

Palazzo Nuovo
(ground floor)

9.15 – 10.15

Dave LAGNADO (UCL)

Causal networks in evidential reasoning

10.15 – 11.00

Jonathan NELSON (MPI Berlin)

**Late-breaking results in stepwise approaches
to sequential search**

11.30 – 12.15

Neil BRAMLEY (UCL)

**Acting informatively: How people learn causal structure
through sequences of interventions**

14.00 – 15.00

Paul PEDERSEN (MPI Berlin)

**Dilation, disintegrations, dominance principles,
and delayed decisions**

15.00 – 15.45

Laura MARTIGNON (Ludwigsburg)

Probabilistic information measures in the classroom

15.45 – 16.30

Flavia FILIMON (Humboldt University Berlin)

**Neural substrates of probabilistic perceptual decisions
based on experienced probabilities vs. descriptive statistics**

17.00 – 17.45

Björn MEDER (MPI Berlin)

Information search and presentation formats

17.45 – 18.30

Vincenzo CRUPI (Turin)

**Shannon and beyond: Generalized entropies
and rational information search**
